• Explosive 1 player action. • Players control speed and destroyers, launch depth charges to destroy subs. • Realistic sonar and explosion sounds. • Optional extended play. • 2-speed control. • Exclusive built-in self-test system.
DESTROYER™
ATARI®

This all new video battle action game is a direct hit for high repeat play.

It challenges **skill**. . .Players control the speed of the destroyer with fast or slow speed settings

By turning the control, players move a horizontal line, visible on the monitor, that shows depth at which depth charge will explode when released

It challenges **timing**. . . By pushing the control, players zero in the depth line marker on randomly running subs and launch one to four depth charges at just the right time to score a hit.

It challenges **incentive:** Highest score to date is displayed in the Attract Mode

Two Types of Targets.

To add to the replay challenge and excitement, there are two types of sub targets that travel at different speeds and depths below the destroyer. Players can aim for higher-point, harder-to-hit subs as skill increases. Scores vary from 25 to 200 points per hit, depending on difficulty, and are flashed on the screen.

"In-the-Picture" Realism.

"3-D" visual effects, realistic explosion and sonar sound effects literally put the player in the middle of Destroyer's spectacular action

Exclusive Operator Options

Extended play. Can be set at 3 different levels of difficulty, related to scores.

Coinage. Can be set at one coin per play, two coins per play, two plays per coin or free play for display and demonstration.

Game times. Can be selected for 50, 75, 100, or 125 seconds.

Exclusive Self-Test System.

Added to thorough distributor and factory service backup, Destroyer has Atari's exclusive built in test program that displays all microprocessor and memory functions including switches and options for easy *on-the-spot* checking and trouble-shooting.

Built for heavy action.

Durable construction, Durastress™ tested solid-state reliability and Instapart™ 24-hour parts turnaround makes Destroyer a long term profitmaker.

Dimensions.

Height. 73," 185 cm; Width. 29.5," 75 cm, Depth. 36," 91 cm.
